Door Handle Guard Instructions

For use with DragonFire "LoBoy" Doors

Tools Required:

5/32 Allen Wrench

Step 1: Locate and remove 2 bolts in the side of latch mechanism using 5/32 Allen Wrench. (Reference Figure 1)

Step 2: Place Guard over latch. Be sure that the pointed side goes towards the hinges of door. Attach by loosely re-installing 2 bolts previously removed (Reference Figure 2)

Dragonfire Racing

Step 3: With guard loosely in place, use slotted holes to achieve preferred guard height. Tighten both bolts hand tight. Be sure to check that handle does not come into contact with guard by cycling handle motion. (Reference Figure 3)

PRO Tip's: Be sure to check every ride to ensure bolts holding guard are still tight.
