Receiver Winch Mount Installation Instructions

Congratulations on your purchase of the new 2" Receiver Winch Mount. Designed to slide right into any 2" receiver and provide the perfect place to mount a winch out back. Built in features like a protection ring to keep your winch safe and sound while out on the trail. This product is a perfect addition to our RZR H.D. Receiver Hitch.

Disclaimer

Off road activities can be hazardous and could lead to injury, dismemberment, paralysis and death. No warranty of representation is made as to the products ability to protect the user from any injury or death. The user assumes that risk. The acceptance and /or use of this merchandise purchased from DragonFire by the customer hereby shall release DragonFire from any and all liability pertaining to the use of such merchandise.

- Do not use if there is any sign of damage or fatigue
- This winch mount may not work with all winches
- Will increase overall vehicle length

Step 1: Place vehicle on flat and level surface. Place gear selector in "park" and remove keys from the ignition.

Step 2: Mount your winches fair lead facing outward within the protection ring of the mount. (See figure A)

Dragonfire Racing

Step 3: Mount your winch on the bottom angled plate so that you can run the cable through the fair lead. Attach pulling hooks at this time. (See figure B)

Step 4: Slide complete winch mount assembly into your 2" receiver and secure with pin of your choice. (Note: wiring for the winch will be needed) (See figure C & D)

Pro Tip: Quick disconnect power clips make it easy to install and remove winch mount quickly
